Please visit:

www.epaosc.org/haystack1

In the document section, you will see the SAP. The SAP contains a lot of site information, probably most everything you'll need.

Also, I think it will be worth visiting Tronox Section 32 / 33 (15 mins from Haystack#1), to show a site that we've done an interim action, waiting for the settlement to go through and find a final resting place for the stockpiled material.

Thanks,

Thanks, Randy!

Let's say 4:30 our time, 5:30 your time.

Marie, hopefully this is after your doctor's appointment.

We'll call you.

Linda

Hi Randy,

I know you're in the field, but would you have time to talk to Clancy and me to prep for Robin Richardson's trip to Haystack? Marie may also participate.

It'd be helpful to know the history of the mines, DOE involvement at Bibo Trespass, historic and more recent EPA activity, etc. It's be good to also show Robin Tronox mines in the area. Is there anything to see at Section 18 right by Haystack or Section 26 (we still need to clarify if this

Tronox mine)? Or even Kermac Section 22 if we go to Ambrosia Lake mill.

Clancy is available at the time below (Pacific times listed, you'd be one hour ahead).

Today 3-4 or after 4:30

Wednesday any time except 9-10 or 2-3

Thursday any time except 9-10, 2-3 and 4-5.

Much appreciated!

Linda
